DNS name changes of OKTE trading systems

- During a special maintenance window on **XX.11.2014 at 0:00 hod.** OKTE, a.s. is planning to change DNS names of OKTE trading systems XMtrade®/ISZO and XMtrade®/ISOT.
- **Be aware that change of public IP addresses and certificates are connected to the DNS name change.** These changes will have impact on external IT systems which communicate with trading systems XMtrade®/ISZO and XMtrade®/ISOT **via web services.**
- Old DNS names will be automatically redirected and thus **this change will not impact users accessing IT systems XMtrade®/ISZO and XMtrade®/ISOT via portal.**

Automatic redirection of domains

- from domain *www.isot.sk* to *isot.okte.sk*
- from domain *www.test.isot.sk* to *test-isot.okte.sk*
- from domain *www.iszo.sk* to *iszo.okte.sk*
- from domain *www.test.iszo.sk* to *test-iszo.okte.sk*

ISOT

- **System XMtrade[®]/ISOT – production enviroment**
- DNS: <http://isot.okte.sk>
- Server certificate: *.okte.sk
- Client certificate: XMtrade ISOT
- Public IP for incomming communication: 85.237.231.116
